Revenue Projection Example: Trial Month

Let's examine conservative projections for Glamour Dinner during the free trial, assuming you sell the 3 free cups daily plus purchase additional inventory:

SCENARIO	DAILY SALES	OPERATING DAYS/WEEK	WEEKLY REVENUE	MONTHLY REVENUE (4 WEEKS)
Conservative (3 free cups only)	3 cups × ₦500 profit	6 days	**₦9,000**	**₦36,000**
